

Bosma Enterprises®
OPPORTUNITY PRO™
 NITRILE EXAM GLOVES
 with Compression Fit Technology

Opportunity Pro nitrile gloves from Bosma Enterprises are **manufactured in the USA** with TAA compliant foreign NBR and designed for extended wear and use throughout a facility, from exam rooms to environmental management. Opportunity Pro gloves are comfortable while providing protection from **fentanyl** and chemotherapy drugs. These gloves include **Compression Fit Technology**, a patented manufacturing technology that produces compression in fingertips for improved comfort, enhanced dexterity, and greater tactile sensitivity, without compromising durability or protection.
